

# 3D Cute Character Gift Bags

Is it a Box or is it a Bag? Surprisingly strong it's a combination of both!  
They're Super Cute and Super Easy to make too!

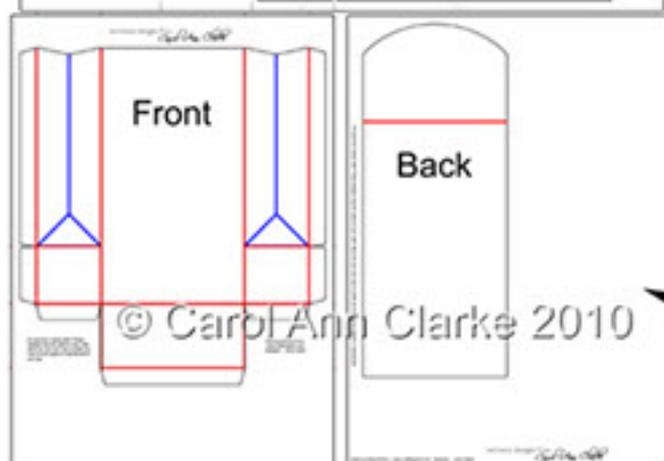

For best results print sheets onto photo paper or good quality cardstock.

# 3D Cute Character Gift Bags

Before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked.

The red, partial, score registration lines are for the box sides. I have marked them in red on the photo.

Cut out all pieces.  
Fold and crease all score lines using a bone folder.

The red lines denote mountain folds and the blue lines valley folds

Take the face and ear backs, turn the face over ...

... and adhere the ear backs in place.

Add adhesive to the bag back flap where marked in blue on the photo and adhere the face in place

## 3D Cute Character Gift Bags

Take the bag front and add double sided tape where marked in blue on the photo

Join the front to the back

Turn over and fold in the side. I have marked in blue the place where the double sided tape that we added earlier is.

Fold the back over and adhere in place. Doing it this way will ensure your bag is totally square.

## 3D Cute Character Gift Bags

Add the tail to the back of the bag and the feet to the front of the bag using foam tape

Most kits have feet decoupage which are separate in the kit and you can choose where to add them, I decided on a jaunty angle for mine!

I used a magnet to close my gift bag but you could use velcro or permanently adhere the flap in place if wished.

Stand the bag up and turn upside down. Fold in the 2 flaps we added double sided tape to earlier. I have marked them in blue on the photo. Fold down the base and tuck in the long flap making sure all edges adhere to complete the base of the bag

There are extra decoupage bows and flowers in most kits. These are separate so you can choose where or if to use them. I decided to add a bow to my bunny

## 3D Cute Character Gift Bags

Your completed 3D Cute Character Gift Bag

The back is super cute too!
