

3D Rubber Band Pop Up Box Cards

Fabulous keepsake cards that are simple to make but look so stunning when made up and will WOW the recipient.

For best results print sheets 1 to 3 onto photo paper or good quality cardstock and sheets 5 & 6 onto good quality paper. For a pretty lining print sheet 4 onto the reverse of sheets 1, 2, 5 & 6

3D Rubber Band Pop Up Box Cards

Before cutting out score each of the fold lines as per these diagrams. Note the red partial score lines and cut on the blue lines. Fold and crease all the score lines using a bone folder

Adhere the flap and back panels in place and add decoupage where wished. Add double sided tape to one of the pieces where marked in red on the photo making sure you avoid the hole and elastic slot

Fold in all the tabs. Remove the carrier from the elastic slot pieces as marked in red on the photo

Line up the pieces and adhere together

3D Rubber Band Pop Up Box Cards

Open the box and attach a rubber band to the hooks

Turn upside down and join the 2 pairs of base pieces using the dst we added earlier

Your card will now look like this from above.

Fold and crease the cross bars. Add dst where marked in red on the top photo

They will be added to the box as per the boom photo

3D Rubber Band Pop Up Box Cards

Add the cross pieces adhering a little below top and so the arms butt against the front and the back of th box

Your card will now look like this

To close your card squish it with the elastic band running left to right. Gently start to fold in the 2 base pieces. Your card will try to resist ... that's the pop up mechanism working lol

Continue the squish it till it's completely flat

3D Rubber Band Pop Up Box Cards

Now comes the fun bit ...
adding the decoupage!
Adhere it to the front and
the back of the cross bars

Your decoupage can come
'out of the box, but squish
your card to make sure they
are mostly within the area
of the flaps

I added some small
decoupage on clear acetate
strips so they will 'float'
when the card pops up. I
squished the card to make
sure they stayed within the
flaps area when the card is
flattened

Make up the matching
envelope using the instruc-
tions on the sheets. You
can pu your card in with the
front flaps up or down ... I
chose to put mine in with
the flaps down.

Your Finished Card
will pop up as soon as it's
removed from it's matching
envelope!

I added decoupage on clear acetate and bows to my card. The decoupage is separate so you can make it differently every time!

© Carol Ann Clarke 2010

There's a writing panel on the back
of your card

The base of your box card is totally
finished too!

There are lots more to choose from:-
