

# 3D On the Shelf Cards

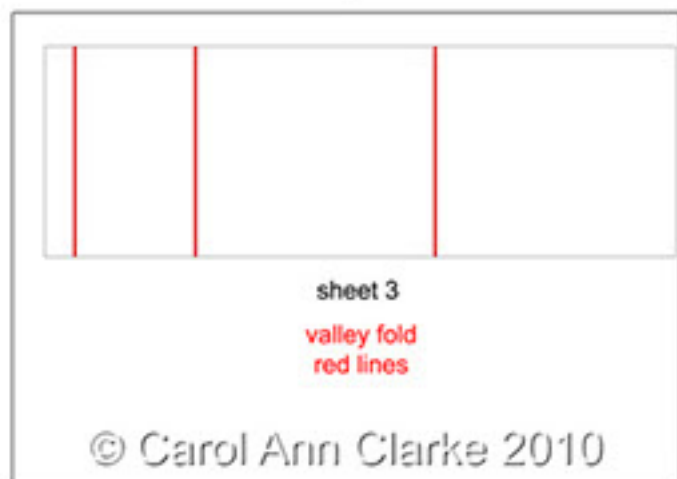

Fun keepsake cards that are simple to make but look so stunning when made up and will WOW the recipient

Print sheets:- 1, 2 & 3 - onto photo paper  
6 & 7 - onto paper. Print sheet 4 onto the reverse of sheets 1 & 3 . Print sheet 5 onto the reverse of sheets 6 & 7 for a pretty lining to your envelope

## 3D On the Shelf Cards

Please read the instructions all the way through before starting to make up.

before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked I have marked these in red on the diagram

I didn't print the backing onto the reverse of sheets 1 & 3 to make it clearer for you to see what I am doing.

Take the card base from sheet 3 fold over on the top score line and add dst where shown in red on the right photo

Adhere the top half of the character to the dst we added above, aligning and centering along the bottom edge.

Trim away any base that shows at the front above the shoulders. See page 3 for more info on this.

Fold up along the bottom score line and add dst to the small flap where shown in red on the right photo

Adhere the bottom half of the character to the dst we added above, aligning and centering and making sure the flap is completely

## 3D On the Shelf Cards

Add the decoupage using foam tape or silicone glue

Your card will now look like the left photo when viewed from the side.

To stand the card up place on a shelf or edge of mantelpiece etc.

Allow the legs to 'dangle' over the front and the base to 'sit' on the shelf, placing the bottom edge of the top of the character behind the hands and top of the knees as per the right photo.

To flatten the card lift up the top half of the character and fold in the bottom half of the character under the top half so your card will look like the right hand photo when flattened.

From page 2

If necessary trim away the white area on the front and the back as shown by the arrows on the left photo so your card will then look like the right photo.

The large greeting panel will fit on the back of your card

## 3D On the Shelf Cards

Your finished On the Shelf Card with matching envelope

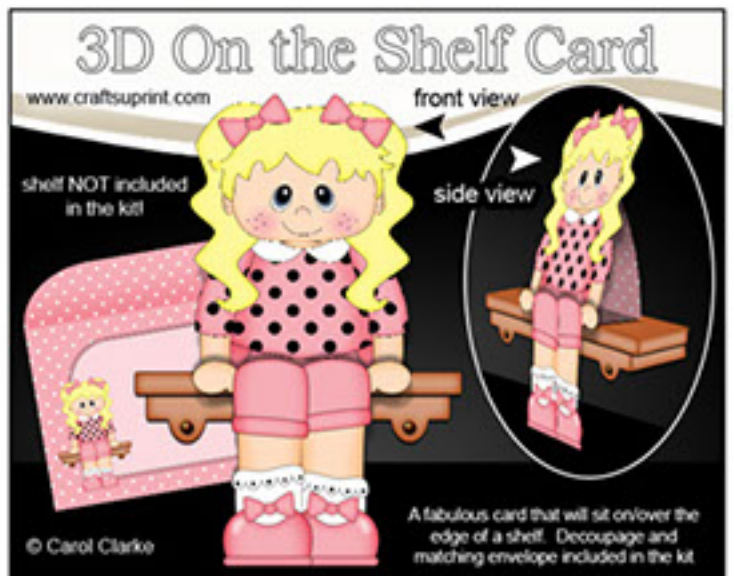

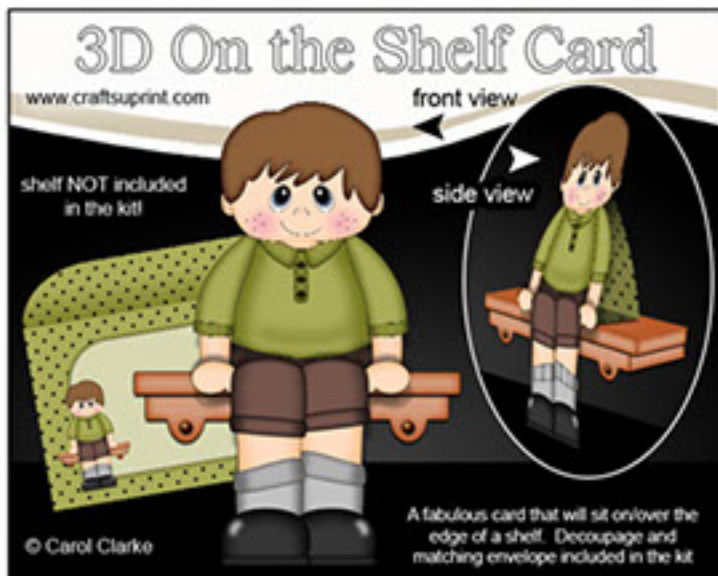

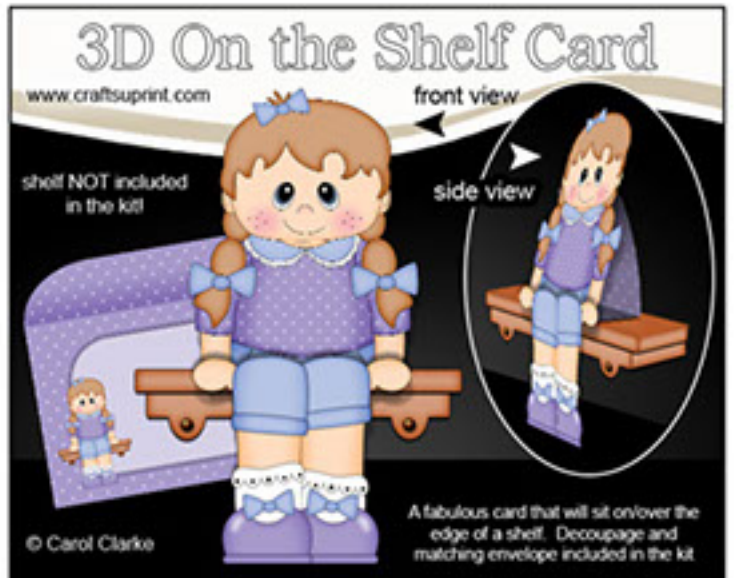

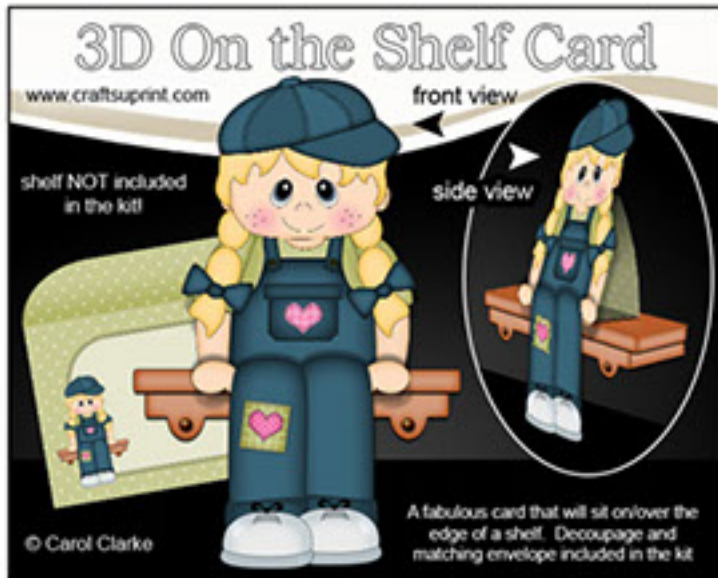

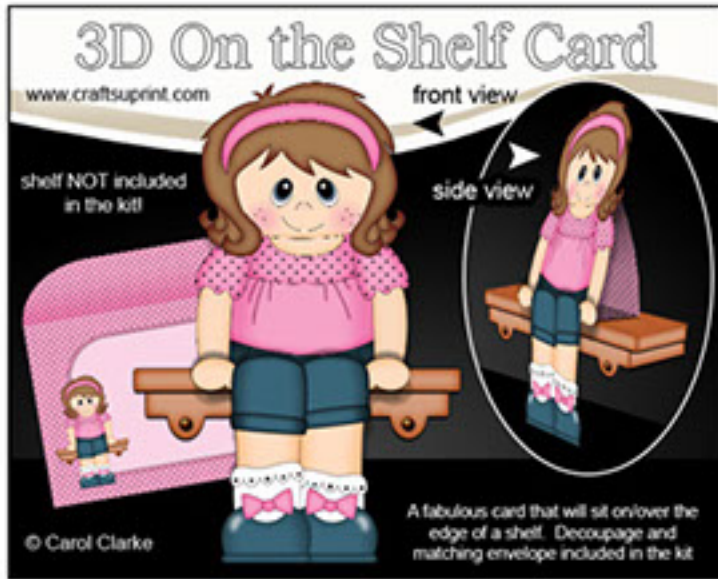

Make up the matching envelope using the directions on the sheets.

Your card will now fit into it's envelope.
