

# 3D Window Pop Up Card Kits - Page 1

Fabulous keepsake cards that are simple to make but look so stunning when made up and will WOW the recipient.

## 3D Window Pop Up Card Kits - Page 2

Before cutting out use a ruler and scoring tool and using the registration marks score along the lines on sheets 1, 2 and 3

there are:-

- 1 on sheet 1 (front)
- 4 on sheet 2 (back outer)
- 3 on sheet 3 (back inner)

Using a craft knife cut the slot/slots where marked on sheet 3 (back inner). If you wish to have more than 1 pop up element cut extra slots where needed on the same fold line

Cut out your choice of pop up element/elements.

Some kits will have pop up elements with 1 slot and tab, others will have 2.

Turn over and apply glue to the main (top) part of the element only. Do not apply glue to the tabs.

## 3D Window Pop Up Card Kits - Page 3

Fold your pop up element in half and apply glue or double sided tape to the outside of the tabs

Thread the tabs through the slot you cut earlier. If your pop up element has 2 tabs thread these into the corresponding slots.

Turn over, Pull the tabs all the way through, open them out and secure in place.

Your inner back sheet will now look like this.

## 3D Window Pop Up Card Kits - Page 4

Cut out sheet 2 (back outer) fold and crease along the bottom score line

Turn over. Apply glue all over the back except along the flap you just folded.

Take sheet 3 (back inner) and lining up the pieces stick them together - back to back.

Fold and crease along the score lines

## 3D Window Pop Up Card Kits - Page 5

Fold up and crease the flap

Turn over. Fold and  
Crease along the top score  
line

Your card will now look like  
this.

Cut out sheet 1 (front)  
including the windows.

## 3D Window Pop Up Card Kits - Page 6

If the kit you chose includes a dangly bit, turn the front over and attach it to the reverse using tape allowing the item to be displayed in the window.

This step is optional but I like to add a 5" x 7" piece of acetate to the inside of the windows, attaching with double sided tape. Not only does it look good but it helps to strengthen the finished card

If your kit contains a window decoration. Cut this out out, punch the holes and attach in place along the inside bottom of the window.

The front of your card will now look like this

## 3D Window Pop Up Card Kits - Page 7

Take your inner and outer back piece you created earlier and apply glue to the inner top above the score line

Align the front in place over the back pieces and stick in place.

Use glue or double sided tape along the bottom flap and secure the bottom front to the back pieces.

Your card will now stand up

## 3D Window Pop Up Card Kits - Page 8

the back of your card

By adding a few of the extras in the kit and maybe a little bling from your crafty stash

you can give your card a real WOW factor!

Print the matching envelope that is also included in the kit onto good quality paper. Make up using glue or double sided tape to secure the flaps.

Your card will fold flat and is now ready to be sent

There are lots more of my kits to choose from

\*\*\* Have fun!! \*\*\*
