

3D Christmas Ball Decoration Card Kit

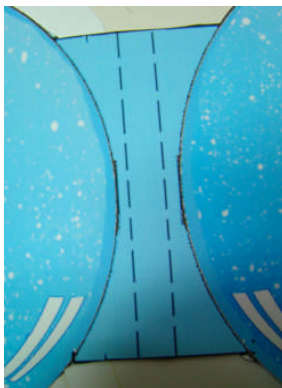

Super fun cards that are easy to make and great fun to receive.

Cut out all pieces on the 2 sheets

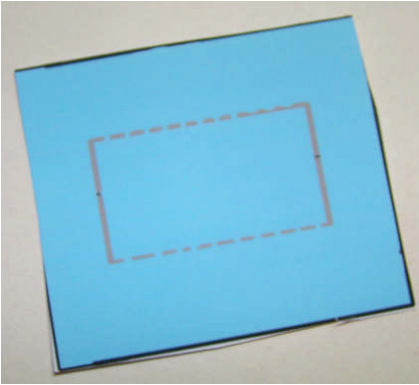

1. Glue the inside panel of the Christmas ball to the opposite side of the outside panel.

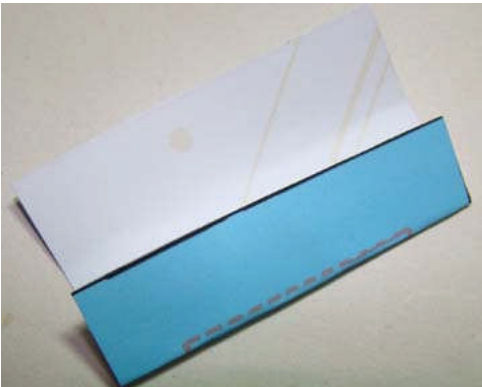

2. Score on the black dotted lines and fold to form the platform for the card to sit.

3. Slit the 2 solid lines on the pop up panel using a sharp craft knife

4. Fold the pop out panel on the 2 broken lines

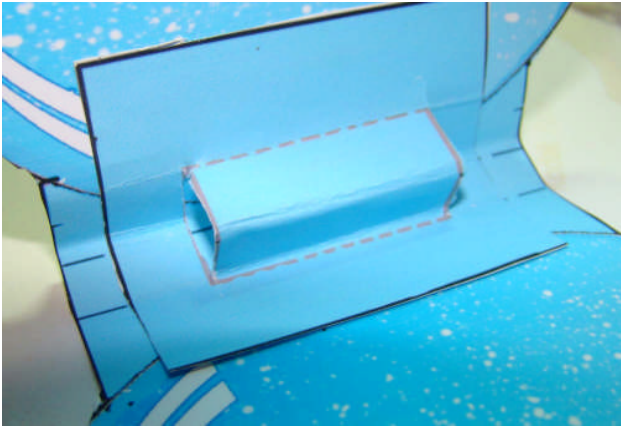

5. Fold the pop out panel in half and it should look like this

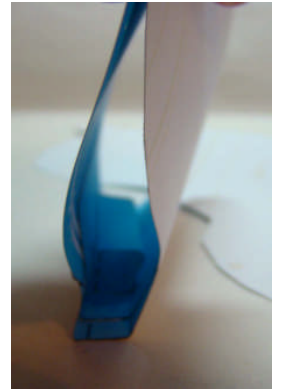

6. Line up your pop out panel with one of the broken lines even with the bottom score line on the inside of the card. Glue or double sided tap it in place.

7. Your pop out panel should now look like this.

Folded up it should look like this.

8. Put your decoupage layers together using 3D foam tabs to create a 3D effect.

9. Attach you decoupage image to the bottom portion of the pop out layer with glue or tape.

10. Punch a hole in the top of the card as shown and thread some Christmassy ribbon through and tie a bow to keep the decoration card closed.

11. Add your salutation tag and you are done.

Wasn't that easy? Hope you enjoy them!
