

Telescoping Card Tutorial

Assembly Instructions.

1. Cut out all pieces.
 2. Using a paper piercing tool add a hole in the bottom of the medium size panel.
 3. Take your large size panel and line up the medium one (upside down) on your big one then pierce a hole through the bottom layer.
 4. Insert a brad through the holes - now you have the first two layers attached.
 5. Open the layers with the smaller on top.
 6. Line up the smallest layer, upside down on the medium sized layer and pierce a hole through both layers.
 6. Insert a brad.
 7. Cut a small piece of ribbon. Fold in half. pierce a hole in the top of the small layer and the ribbon and attach with a brad.
 8. Add whatever embellishments you wish. and you are done.
- Easy peasey right.
9. Attached is a matching envelope for your card.
