Double pop-out instructions

1.Print all sheets onto good quality photo paper or white card. If a design has a lot of dark colours or black, card is best as it does not smudge like photo paper.

2.   Cut out all shapes you need. See fig 1.

6.   Stick the hexagon shapes one on top of each other (matching the design on the layer below), using sticky foam pads, fig 5.

7.   Stick the completed hexagon with it's layers onto the card front and finish with your chosen sentiment label.

8.   Push sideways to fold flat.
