

3D Basket Shaped Treat Boxes

Starting with sheet one. Cut out along the outer edges.

Crease the 2 score lines with a bone folder and fold upwards.
Place to one side

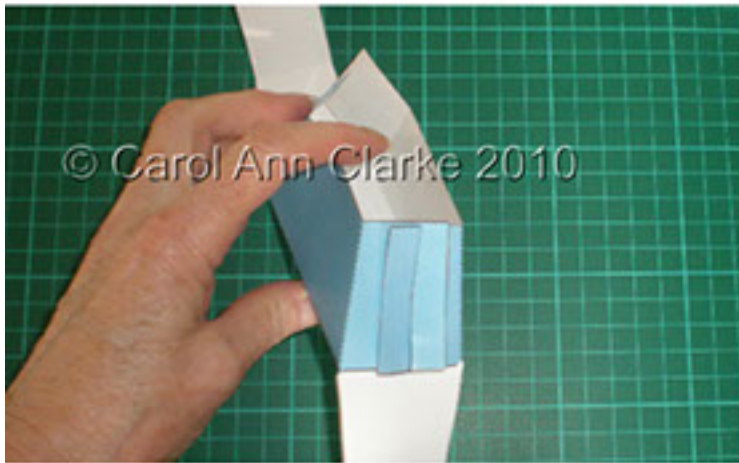

Cut out the box from sheet 2, also cut the slits where marked.

Turn over and fold up along both the longer sides

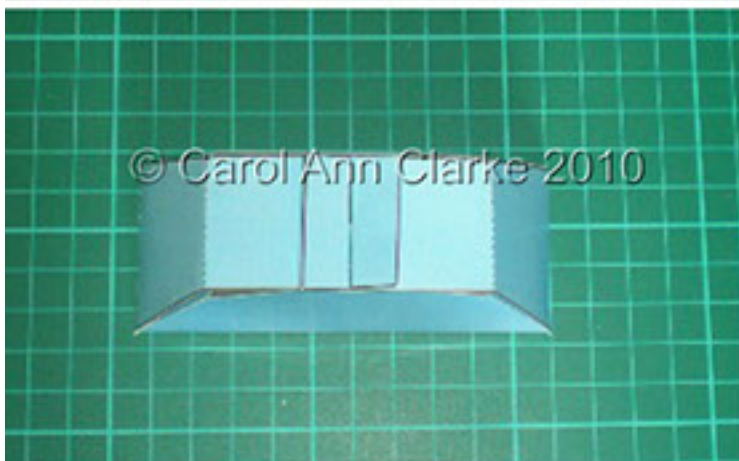

3D Basket Shaped Treat Boxes

Use the slits to join both the ends

Your box will now look like this from the side

Fold in the remaining sides over the box

and use the slits to secure

Your box will now look like this from above

Your box will now look like this from the side

3D Basket Shaped Treat Boxes

Open up the basket we set aside earlier and add adhesive to the central area. Take your box and adhere it centrally.

Add Treats or a small gift into the box.

It will take quite a few chocolates

Or even a small gift nestled in tissue paper

Add double sided tape above the top score line on one side. I have marked this in red on the photo and bend forward slightly along these lines

3D Basket Shaped Treat Boxes

Fold up the front and back and bending slightly along the top score lines adhere the front and the back of your basket together

There are 3D decoupage bows in the kit too. They are mirror images and can be added wherever you wish.

Adhere one to your basket front

Turn over and add the other to the reverse.

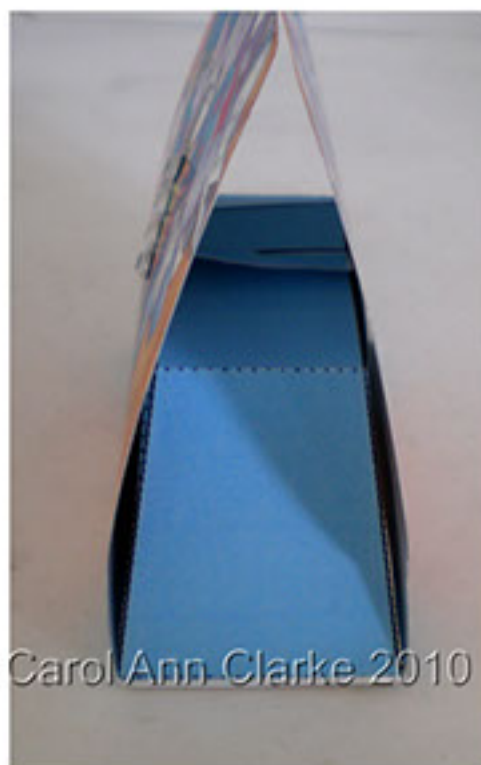

It is best to mark the backs with an arrow prior to cutting out to make sure they fit together perfectly.

Or you could use ribbon to tie a bow if you prefer

I finished off my basket with a little bling!
