

# Flower Pot with Removable Tag/Bookmark Tutorial

Print the sheets, and cut out all of the pieces you will use.

\*If you would like to personalize the tag or blank insert, you can add text before printing, or personalize by hand after printing.\*

I chose the personalized insert, and added text to my removable tag/bookmark.

Image A

Card Front after folding

score and fold image A where indicated. The front is on the right, and the back is on the left. When folded you card will look like this.

Image A

Image B

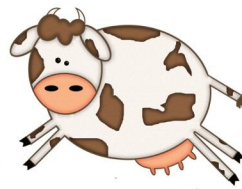

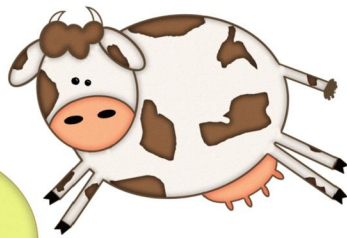

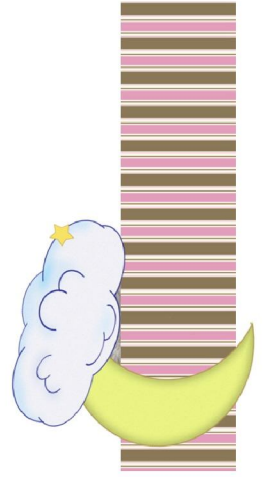

Lay image a flat, as shown.  
 Add Sticky tape to the (white) backside of Image B where indicated.  
 This will allow an opening for the tag.  
 Peel the tape and attach to Image A.

Now the card front will look like this, and there will be a pocket to insert the tag.

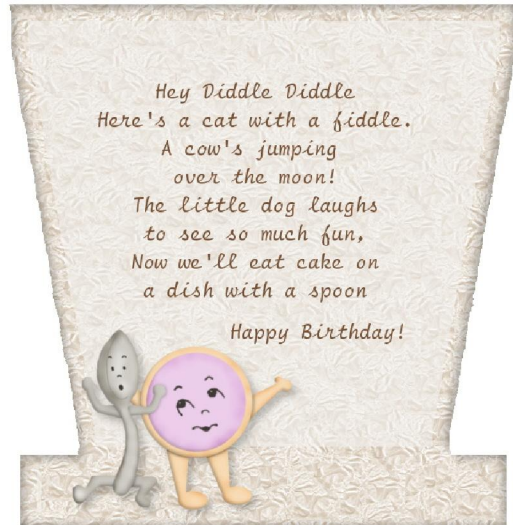

\*Card back decoupage\*

Add the remaining decoupage elements to the card front and tag.

Attach left and right insert to the inside of your card, using double stick tape or glue.

Finished card with tag

Finished shaped card with tag/bookmark inserted

This card can also be made using a card blank and attaching all of the elements as shown in the tutorial.
