

3D Mini Milk Carton Cupcake/Treat Boxes

Cute little milk carton style boxes with an inner to hold a cupcake in place or if you leave this out they make great little boxes to hold sweets/ cookies or small gifts too!

For best results print sheets onto photo paper or good quality cardstock.

Before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked. The small black dots on the sheets also need to be joined with score lines. I have marked them in red on the photo. Score the lines around the window I have marked these in red on the photo and the diagonal cut lines in green

Cut out all pieces.
Fold and crease all score lines using a bone folder.

The red lines denote mountain folds and the blue lines valley folds, cut the green lines.

Take the front of the box, and turn it over

Fold in and adhere the sides of the window frame. Cut a piece of clear acetate approximately 2.5 x 3" and adhere in place over the window area

The small piece is for the front of your box and can be added now.

Fold and crease all the score lines with a bone folder and your box front will look like this now.

The easiest way to crease the diagonal valley folds is to turn over the triangular piece on the right and crease

... and then fold over and crease the other triangle piece, making sure not to crease down into the sides of the box.

Crease and fold the back of your box in the same way.

Add double sided tape to the side flaps. I have marked these in red on the photo

Join the front and back of your box making sure to align the sides.

Your box will now look like this. Add double sided tape to the bottom and side flaps.

I have marked these in red on the photo

Turn over and fold in the side flaps.

Fold and crease the canopy along the score line. Adhere to the double sided tape on the top flap. The canopy only adheres along this top edge.

Fold over the top flap from the rear of your box. Punch holes where marked and secure with ribbon or cord.

I added the gift tag to the ribbon closure too

Bend and slightly crease the canopy upwards away from the box front.
