

3D Accordion Swing Cards

Fabulous cards that open out into an accordion with 4 swing panels but fold flat for posting in the matching envelope

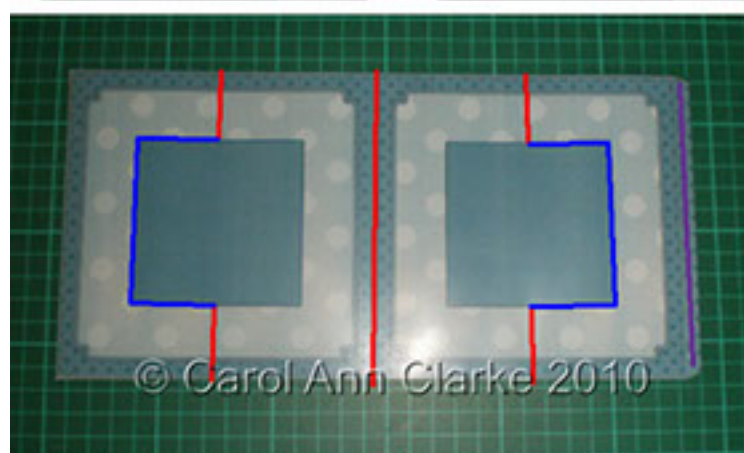

For best results print sheets 1 to 3 onto photo paper or good quality cardstock and sheets 5 & 6 onto good quality paper. Print sheet 4 onto the reverse of sheets 1, 2 & 5

3D Accordion Swing Cards

Before cutting out score all the score lines as marked on the sheets and in red on the left. Cut out all pieces and cut along the cut lines as marked in blue on the left

Take one of the card fronts from sheet 1. I have marked the score and cut lines as mentioned above in red and blue on the photo. Add dst to the flap on one piece as marked in purple on the photo. Cut off and remove the flap from the 2nd front

One at a time turn the fronts over and fold in half.

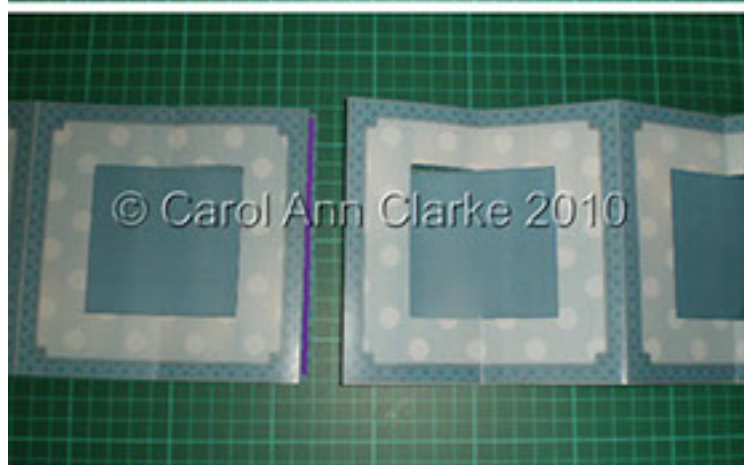

Now pick up the free edge and fold back along the short score lines on the front. Turn over and do the same on the back. The square in the middle will stay where it is.

3D Accordion Swing Cards

They will each now look like this from above

Place the 2 pieces side by side with the tab we added dst to earlier in the centre. I have marked the dst in purple on the photo

and join the 2 fronts together

It will now look like this from above.

Place to one side

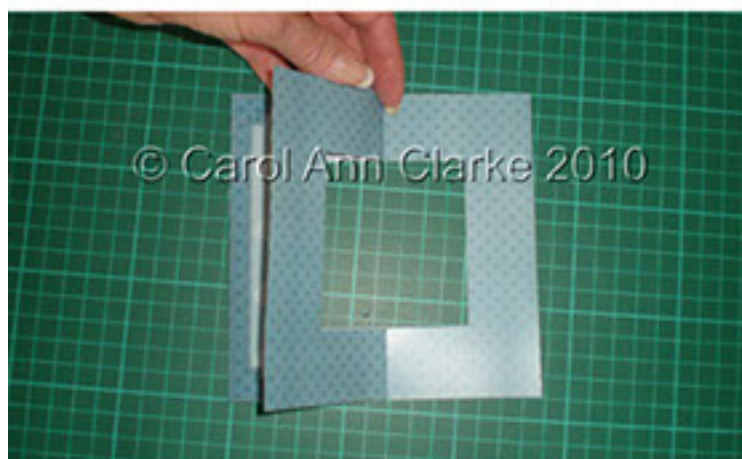

3D Accordion Swing Cards

Take 1 of the card backs from sheet 2. Score and Cut as per the diagram on page 2 of this tutorial. I have marked the score lines in red on the photo. Cut out and remove the central squares

Turn over and fold in half

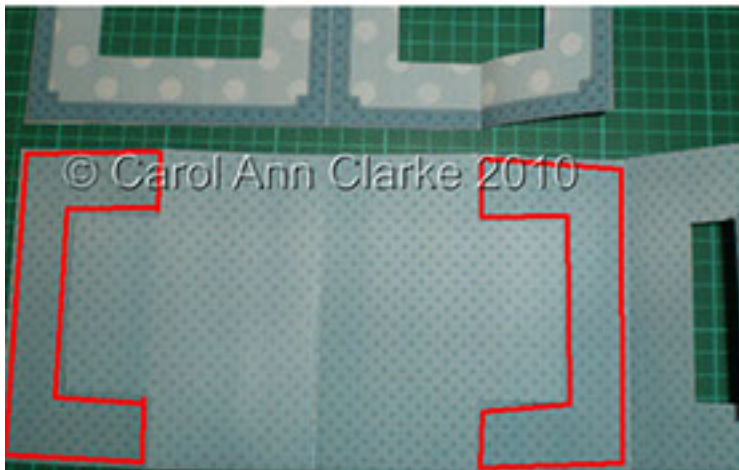

Fold back along both sides along the small score lines the same as we did on the card fronts

Repeat with the 2nd card back

3D Accordion Swing Cards

Take the long piece 1 and place face down. Add dst to the areas marked in red on the photo (this is on 1 half of the long joined fronts)

Take one of the card backs and adhere in place over the front, lining up the edges.

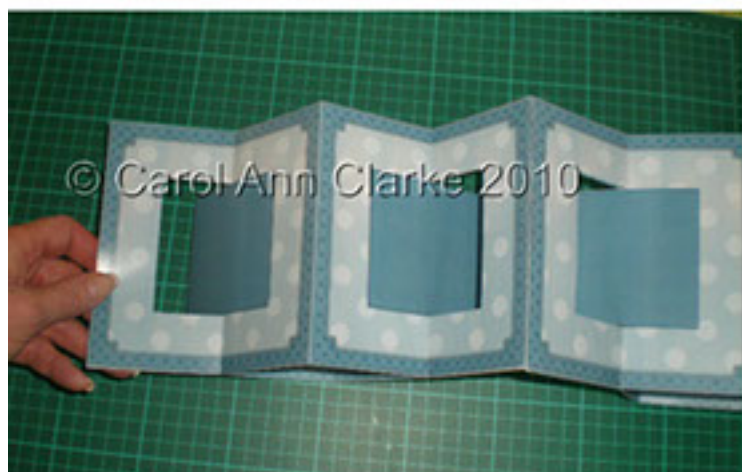

Repeat for the 2nd half of the fronts adding dst where shown in red on the photo

And adhere the 2nd card back in place, creating one long double sided card

3D Accordion Swing Cards

Your card will now look like this when opened up

Cut out and adhere the square panels to the squares on your card, making sure they stay within the squares so they can still swing when opened.

There are a number of squares to choose from including writing panels, you can choose where to add them plus the 3D decoupage too. Just beware not to add too much depth within the card as this may mean it will be too thick for posting. Further squares can be printed if you'd like to add them to the back of your card too

Your card will now look like this from above with the 2 central squares not yet joined at the back. We will join them in the next step.

3D Accordion Swing Cards

Score, cut out and fold the joint piece and add dst to the reverse of it as shown in red on the photo

Adhere it in place along the back of one side of the middle square panels

If you have printed the backing paper on the reverse of the sheets this joint should blend into the back of your card.

Now adhere the 2nd half of the joint to the reverse of the 2nd central square panel

3D Accordion Swing Cards

Start to fold your card accordion style

Collapsing and folding all the panels

Until your card is flat

Make up the matching envelope according to the instructions on the sheets

Add any extra decoupage plus greetings from the kit

Score and fold the gift tag

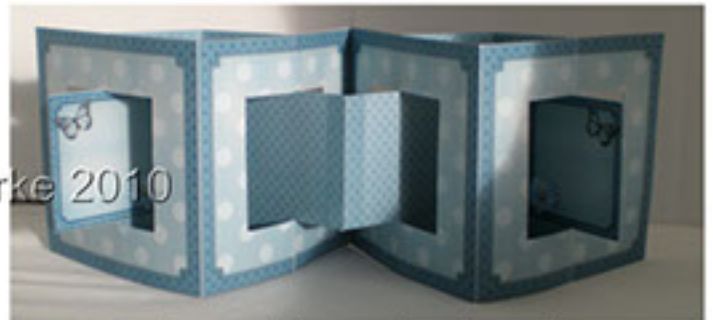

3D Accordion Swing Cards

Your completed 3D Accordion Swing card open and viewed from the front

viewed from above

viewed from the back

Closed and ready to be posted in it's matching envelope
