Before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked. Cut out all pieces, cut the cut lines where marked. Fold and crease all score lines using a bone folder.

Take the card front and card back and place side by side as shown with the shaped flap at the right and turn over.

Slide the drawer into the sleeve and tie the ribbon.

I'm using a sticky backed magnet fastening. Adhere one side to the front flap and adhere the flap panel in place over the top.

Open the card and add the 2nd half of the magnet to the inside with the sticky back uppermost.

Close the card to adhere the 2nd half of the magnet in place.

Open up the card and adhere the flap panel in place over the magnet. This will mean that the card will be held shut but the magnets will not be visible. Or alternatively you could use velcro or a ribbon for the fastening

3D Gift Box Cards

Fill your box with goodies. I added chocolates, these are very large ones and were a snug fit but look gorgeous. Other suggestions are cosmetics, jewelry, pamper set (perhaps with bath pearls, eye mask, face mask, scented candle etc) diary and pen set, home made cookies wrapped in cellophane, candies, hand creams, flower seeds, lingerie etc etc etc!!

I added the large tags into the pocket

And a small tag to the box
