

# 3D Christmas Character Milk Carton

Little Christmas milk carton style boxes with Christmas Characters. Great little boxes to hold Christmas sweets, cookies, party favours or gifts etc!

For best results print sheets onto photo paper or good quality cardstock.

# 3D Christmas Character Milk Carton

Read these instructions all the way through before making your Gift Box

Before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked. Use the lines at the edges of the sheets to align your ruler

The small black dots on the sheets also need to be joined with score lines. I have marked them in red on the photo.

The red lines denote mountain folds and the blue lines valley folds.

Cut out all pieces.

Fold and crease all the score lines with a bone folder and your box front will look like this now.

The easiest way to crease the diagonal valley folds is to turn over the triangular piece on the right and crease ....

... and then fold over and crease the other triangle piece, making sure not to crease down into the sides of the box.

# 3D Christmas Character Milk Carton

Crease and fold the back of your box in the same way.

Add double sided tape to the side flaps. I have marked these in yellow on the photo

Join the front and back of your box making sure to align the sides.

Add double sided tape to the bottom and side flaps as per the photo.

I have marked these in yellow on the photo

Fold your box in half and adhere to the double sided tape we added earlier. making sure to line up the sides

Fold in the 3 small flaps.

# 3D Christmas Character Milk Carton

Fold in the last large flap and adhere to the  
dst

Your Gift Box will now look like this from the  
front

Your Gift Box will now look like this from the  
side

Fold the top flap over towards the back

## 3D Christmas Character Milk Carton

Continue folding and feed the top flap into the box

Until your gift box looks like this

If you have any problems feeding the flap in then cut a tiny sliver from the edge of the flap. Make sure it is only a very tiny sliver though as if you remove too much your flap won't stay closed.

Left like this you are able to open and close the box or you could permanently fix it if you wish

Your Gift Box will now look like this from the front

Add dst or foam tape to the top marked in yellow on the photo

Add the head making sure it is central and straight ... or at a jaunty angle if that's what you prefer! lol
