

## **Christmas Snowman Ear Rings**

**A Tutorial For Ear Rings –For cup814998-79993 by Clare Walker**

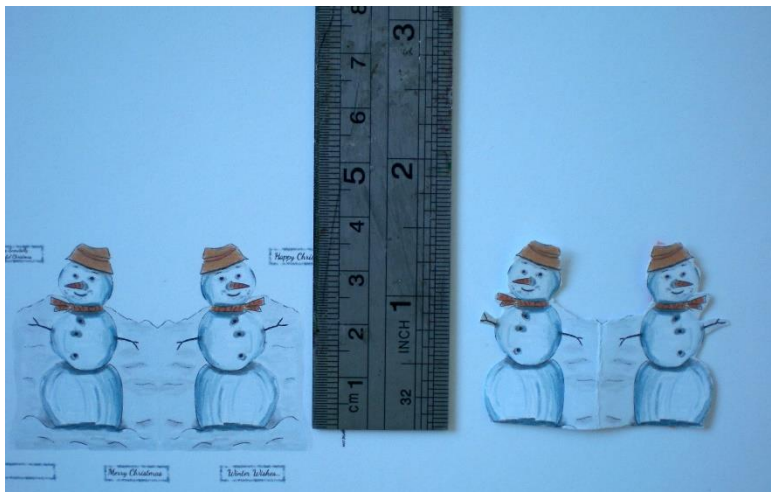

**Titled “Christmas Snowman”**

**This is the completed ear ring.**

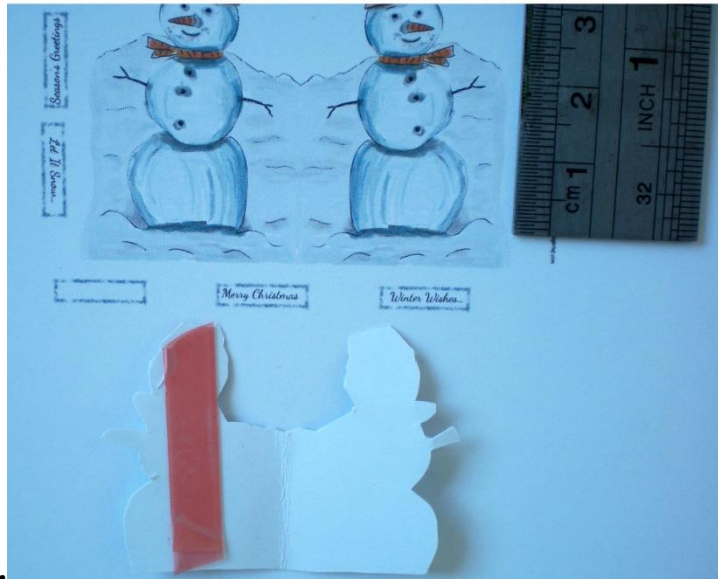

**Step1. Using 200gsm white matt card, print out the sheet cup814998-79993, twice, as seen below at the size you want the earrings to be finished.**

**Mine measure 3.5 cm without the added hook and jump ring.**

## Christmas Snowman Ear Rings

Step 2. Cut out, very carefully, without folding, exactly as the sheet shows, making sure that you cut around the arms, leaving a small amount of white

background as well.

Step 3. See above. Using double sided, red power tape, attach the tape to one side of the wrong side, fold and seal along the centre line. This is an excellent match, as Clare has gone to considerable trouble to make sure of this.

Step 4 Using Mod Podge Gloss lustre, and a fine very soft brush, liberally apply the mod podge to one side of each Snowman.

Allow to completely dry, at least 2 hours, preferably overnight, and then repeat on the other side of the snowman, allowing drying time again.

This is how the mod podge looks when it is wet. It dries absolutely clear.

## Christmas Snowman Ear Rings

Step 5. Using a single hole punch and lining it up to miss the face area, and just punching into the hat.

Wrong Position

Right position

Step 6. Using fine nose jewellery pliers insert a jump ring into the hole you have punched.

Attach, using the pliers to open the jump ring, Your choice of hook style , or screw style, to complete the ear ring.

One really cute snowman
