

3D Shaped Card Kits

A fabulous fun shaped cards that are quick and simple to make but look really stunning when made up and will WOW the recipient.

For best results print both sheets onto photo paper or good quality card-stock

3D Shaped Card Kits

Read these instructions all the way through before making your card

Before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked. Use the lines at the edges of the sheets to align your ruler.

Mountain fold the red line and valley fold the blue line as shown on the diagram.

Add dst where marked in green

Fold the top and bottom joining pieces

Take the front, turn it over and attach the joining pieces in place at the top and bottom.

Place the top one with the fold at the top and the bottom one with the join at the bottom.

The bottom piece will keep your card upright while it rocks

Adhere the back in place

Your card will then look like the photo on the right from the side
