Cute Canine Treat/Favour Boxes

Read these instructions all the way through before making your box

These scoring diagrams will show you exactly where the score lines & cut lines for your box are on each sheet. There are also score lines on the spines that are not shown on the scoring diagrams

Before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked.

Cut the **AQUA** lines on sheets 2 as shown on the diagram. Mountain fold the **RED** lines as shown on the diagrams. Fold and crease all the score lines using a bone folder. Add dst to the flaps where shown in **BLUE** on the diagrams

Lay out the treat box right side uppermost. The dst as added above is marked in **blue** on the photo

Note the fold lines marked in **orange** on the photo

(Please note the alignment of the treat box from sheet 2 will be the same as in this photo for the next few instructions whilst we add the front and back pieces)

Align the front along the line marked in **orange** in the above and left photo and adhere to the dst

Cute Canine Treat/Favour Boxes

Add the back (upside down) in the same way along the remaining orange line as shown on the photos

You will now have a piece with long flaps to left and right with the front and back opposite each other

Turn over and fold the front & back upright around the treat box

Fold in and overlap the sides and use the slits to secure

Start to fold in the long flaps

Your box will now look like this from above
