before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked including between the small black dots. I have marked these in red on the diagram

Cut out all pieces.
Fold and crease all score lines using a bone folder.

The red lines denote mountain folds and the blue lines valley folds

score and fold the box insert

The front and side of your box will now look like this.

Add double sided tape to the side flaps. I have marked these in red on the photo

The back and side of your box will now look like this

The easiest way to crease the diagonal valley folds is to turn over the triangular piece on the right and crease

... and then fold over and crease the other triangle piece, making sure not to crease down into the sides of the box.

Join the front and back of your box making sure to align the sides.

Add double sided tape to the
bottom and side flaps.

I have marked these in red on
the photo.

Fold your box in half and adhere
to the double sided tape we
added earlier. making sure to
line up the sides

Open out and turn your box on
it's side. Fold in the 2 opposite
smaller bottom flaps. Making
sure to keep your box square.

Fold in the remaining smaller flap

3D Large Milk Carton Kits

Fold up and and adhere the remaining flap to secure the base of your box

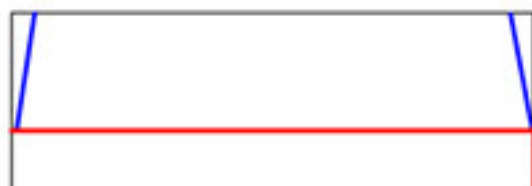

Your box will now look like this from the front and the side

Fold in the valley folds at the sides and feed the small flap at the front into the top of the back. Continue to feed the flap inside until it's like the bottom right hand photo.

Depending on the thickness of your cardstock you may need to trim the flap a little from the score line to the flap edge as per the diagram below. Only trim a tiny bit as otherwise your box may not stay closed
