Please read the instructions all the way through before starting score the fold lines on both sheets. I have marked these in red and blue on the diagram

Cut out fold and crease all score lines remove the striped areas. add dst where marked in green on the diagram

Join the 2 pieces together lining up the design

Fold over and adhere the other side to make a tube

Your cracker box will now look like this when opened up

Gently ease the middle sections inwards

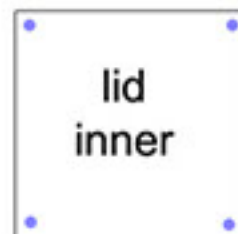

push the ends all the way in

(this will help with keeping the box square when adding the lid and base inners to the box)

Cut out the lid and base inners. punch a hole in the lid inner where marked and add a ribbon loop, securing underneath with either a knot or tape. Turn over and add dst where marked in **red** and mini glue dots where marked in **blue** on the diagrams below

insert the lid and base inners into the box ends adhering to the dst/glue dots you added earlier

secure the top and bottom sections with ribbon, cord or thread etc pop a gift in the middle section and add the decoupage and tags as desired.
Score, fold, and cut out the matching folded gift tag
