For best results print both sheets onto photo paper or good quality card-stock

3D Rocking Card Kits

Read these instructions all the way through before making your card

Before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked. Use the lines at the edges of the sheets to align your ruler.

Mountain fold the red lines and valley fold the blue lines as shown on the diagrams.

Add dst where marked in green

Fold the bottom joining piece

Take the back, turn it over and attach the joining piece in just above the base of the card.

The bottom piece will stop your card from splaying out

Adhere the front in place to the dst we added earlier

Your card is smaller than A5 & will fit into a C5 envelope
