

Weddings can be a dilemma when families have kids. Do they get invited? How do you keep them occupied? Well these little books will keep them entertained while the adults can get to enjoy the occasion. Each book includes colour-ins, word search, crosswords, Tic Tac Toe, match the items, item search, and other puzzles to keep them amused.

Some books include an area for the child's name and also the Wedding Couple's names and date. Add a packet of coloured pencils or crayons with each book. Do not use felt pens as they could stain clothing and/or table linen. Packs with other wedding favours (Bubbles, mini lolly bag or lolly pop, novelty toy etc) could also be made with the Booklet.

If you have Acrobat Reader you can edit the front page to use the computer to add names. Otherwise add by handwritten text.

Print the pages. They are A4 size. If you need set your printer settings to 'Fit to Page'. Suggested medium is 120 gsm (heavy paper/light cardstock) with a matt finish to allow colouring.

Fold printed pages in half and staple in the fold. (You will need a longreach stapler). If you do not have a longreach stapler, use a paper punch with 2 holes and thread ribbon through. You could also wrap a ribbon around the pages and add a bow. Use ribbon to match the wedding theme.

Some of the other Activity Books available. More will be added so keep checking my store in the Paper Craft section. Also available single sheet Placemats. <https://www.craftsuprint.com/vicki-avcin/>

Thank you for purchasing.
