

Tutorial for Sentimental Floral Mini Kits.

Once you have downloaded the file, unzip the file.

1. Print out both sheets

2. Cut out the items on both sheets. One sheet is the topper and decoupage pieces, the other is the card insert. (Score your fold on the insert using the markers before cutting)

3. Using the card stock of your choice, place the topper on the front of the card.

4. Add the decoupage pieces using double sided foam pads.

5. Add the sentiment.

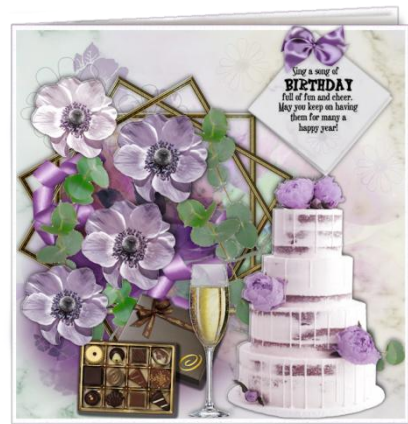

6. Place the card insert into the inside of the card.

7. Embellish how you like. You can add some glitter, ribbon, peel off edging etc.

Your beautiful card is now ready to give to that special person. It's that quick and easy to make!
