

This is not exactly a tutorial. It shows examples of using the folder to create your own card from other craftsUprint card making projects or digital stamps. Any graphics you use must be resized to fit in the center portion of the folder. The card folders are 5.25” squares unless otherwise specified. The center area will vary by design and are specified in the description.

cup1063006_2228 - Sentiment Edge Card Folder 01

Best Wishes and Happy Anniversary Folders make a quick folding card base. Embellish it with your favorite card making kit. Add some bling or decoupage will add to the creativity. The sentiment can be backed by a card liner to emphasize the sentiment or cut the sentiment from vinyl with the included matching words. Two 5.25 square card folds can be cut from a 12 x 12 sheet. Resize for other dimensions or use as a card topper for cards over 6 inches. Also included is a front split sheet to add patterned paper around the sentiments.

I cut a 5.125 inch square liner sheet to put in the inside of the card to add the pink behind the Best Wishes sentiment. I did not use the vinyl cutting to add on top of the words. The center panel uses on panel of Mary MacBean's cup425457_1648 Peach Roses Fold Back Mini Kit. It has decoupage elements which I did not use all of them, instead I added the heart for extra bling.

The second example used the vinyl sentiments which pit over the cutout. The sentiments could be used on any card and cut nicely from vinyl. I used the frosted vinyl which works well with card stock projects. The center is an embellishment from my cup982274_2228 Butterfly Mandala Rocker Card. This embellishment uses vinyl to accent the butterfly, flower and leaves.

cup1063015_2228 - Sentiment Edge Card Folder 02

Congratulations and Happy Birthday Folders make a quick folding card base. Embellish it with your favorite card making kit. Add some bling or decoupage will add to the creativity. The sentiment can be backed by a card liner to emphasize the sentiment or cut the sentiment from vinyl with the included matching words. Two 5.25 square card folds can be cut from a 12 x 12 sheet. Resize for other dimensions or use as a card topper for cards over 6 inches. Also included is a front split sheet to add patterned paper around the sentiments.

Congratulations, used gold glitter paper behind the sentiment, a specialty paper as a frame and Anna Babajanyan (cup805466_96_Fancy Blank Toppers With Octagon Layer Kit) for the center plate. I added the graphics 45 sticker and butterflies from my collection cup966299_2228 Butterfly Embellishments - Print and Cut. This turned out a stunning card.

A trendier card is the Happy Birthday card. The sentiments were cut from the included word art out of vinyl. I love using mat vinyl for sentiments. I can cut very small pieces, use transfer material and get an exact fit. The center is cup798286_25427 - PRICELESS BIRTHDAY TEENAGER by Tracey Hutchins. Perfect for a teenage card. These folders give graphic cards an extra zing with the feel of hand crafted quality.

cup1068488_2228 - Fall Deckled Folder

This mini kit contains two deckle edge designs. They can be used when making your own cards or as a fancy base for card making kits.

I cut the file on AC card stock - 216 gsm color carrot and lined it with brown paper studio melon card stock which is a light weight.

The Sassy Cheryl character was digitally colored on my iPad and then printed on white AC card stock. It was mounted with foam double sided tape to give it a dimension.

cup1067469_2228 - Deckled Edged Card Folder 04

This mini kit contains two deckle edge designs. They can be used when making your own cards or as a fancy base for card making kits. They will dress up any design card. Please see gallery for examples.

The folder was cut from AC card stock, color rain. One card has a 3.5" square topper and the other is 4" square topper. The card making pieces were resized to fit these dimensions. A separate darker blue square slightly larger was used to give a definition border.

cup1064759_2228 - Deckled Edged Card Folder #04 Christmas Theme

This mini kit contains a deckle edge folder with several added frames and embellishments as seen in the product Image. The image shows a card made with the enclosed folder, extra tree frame, stars and a abstract tree image. This is a lovely card especially when you add your own personal sentiment. The green tree border adds an interesting spot on the inside to frame the sentiment or if used on the back of the front as a place to put your family photo. The simplicity of the design makes a quick and elegant card. But also use the folder alone to enhance any of the card making designs. Resize the folder or the card making design to fit. Build the design on the deckled edge folder. A nice splash is added.

In the example I used cup744213_118 - finding a tree mini kit#1 by Carol Brown-Jeminis Crafts for my center card. I layered it on a red square with foam tape to give it some dimension. I used all AC Cardstock. White for the deckled card folder, the green for the 6 tree per side frame used inside the card, gold glitter cardstock for the stars and a 1/8th inch frame in red for the edge. Inside I mounted a red square to add color behind the white and green trees.

cup1062402_2228 - Deckle Edged Card Folder #03

This mini kit contains two deckle edge designs. They can be used when making your own cards or as a fancy base for card making kits. They will dress up any design card.

I used cup778543_936 - Roses & Pearls by Marijke Kok and cup338661_1209 - 8x8 Baby Girl Christening by Carol Smith for these examples.

I have gotten both of these through the freebie vault and added them to the deckle edge folder.

The folder added a special touch of romance and sweetness to each card. I used some foal tape to mount the resized card base.

cup1062410_2228 - Deckle Edged Card Folder #02

This mini kit contains two deckle edge designs. They can be used when making your own cards or as a fancy base for card making kits. They will dress up any design card.

The two other example folders are cut from AC card stock. They are examples of using a card from the cardmaking department with a deckle edge folder. I used cup641939_1763 - Handbags & Gladrags by Anne Lever and cup745772_359 - Christmas Oops Santa Goes Skiing by Carol Clarke for these examples. I needed to print the images to fit the card. You can also resize the deckle edge folder to fit. It gives the simple card a special design. I did not use the decoupage sheets simply because the frames added enough to the cards. I did use foam tape to raise the image slightly. I like the combination of using the deckle edge with card making designs. The image was resized to fit into the solid area of the folder.

cup1062410_2228 - Deckle Edged Card Folder #01

This mini kit contains two deckle edge designs and one card base topper. They can be used when making your own cards or as a fancy base for card making kits. They will dress up any designer card.

These are examples of using a card from the cardmaking department with a deckled edge folder. I needed to print the images to fit the card. You can also resize the deckled edge folder to fit. It gives the simple card a special design.
