

# Rock n Roll Cards - Page 1

Great fun card kits to make cards that Rock n Roll !!

For best results print sheets 1 & 2 onto photo paper or good quality cardstock and sheet 3 onto good quality paper

## Rock n Roll - Page 2

Before cutting out use a single needle tool and make a hole where marked on sheet 1 (front)

Turn the sheet over and draw a line between the 2 areas you just marked

Also before cutting out align a ruler along the score lines on sheet 2 (back) and score lightly

align a ruler along the score line on sheet 2 (back) and slip a bone folder beneath and press upwards lightly to bend the bottom half of the back upwards slightly

## Rock n Roll - Page 3

Turn piece 2 (the back) over and make a mark on the upper/top half of the card

Use a glue stick or use double sided tape on the area you marked spreading the glue evenly down to the score line only. Do not put any glue on the bottom half of the card

Align and stick the 2 pieces back to back lining up the line on sheet 1 with the score line on sheet 2 and stand up. The back will splay out from the score line allowing your Rock n Roll Card to stand and rock.

Cut out the insert, fold in half and attach to the inside of your card.

## Rock n Roll - Page 4

Your finished card  
will now rock n roll

Sign the handmade  
by on the back and  
pop into the  
envelope that's also  
included in the kit

## Rock n Roll - Page 5

There are lots of different Rock n Roll kits to choose from

These are just a few of the kits available
