

Lace card tutorial

You will require

1. scissors
2. Ruler
3. Knife
4. Hole punch
5. Glue stick
6. Sticky pads or silicone glue
7. Double sided tape
8. About 50cm of Ribbon

Print onto good quality 250 gsm (or higher) card

Cut out all pieces using knife & scissors

Using the glue stick , glue the inside & outside of front of the card together.
Repeat this for the back of the card.

Once it is all stuck together there will only be printed sides of the card showing.

Using the hole punch, punch holes where indicated on the front & back pieces of card

Line up the holes on front card piece with the inside holes on the back card piece.

The card should now look like this.

Using the ribbon lace the card together as shown.

Tie of ribbon at top.

Add elements to finish off card & your finished card should look something like this.
