# Explosion Cards instructions

These instructions are how to make the inside of the card.
Print out the verse insert sheet and the sheet with the small hexagons onto
normal weight A4 paper – card is too thick for this project.

After cutting them out fold the flaps inwards

Fig 3   Fig 4

Stick the octagon shapes onto the flaps (see picture) GLUE should go ONLY ON
THE FLAPS. (Fig 3)

Fold in half cross ways with wrong sides together. (Fig 4)
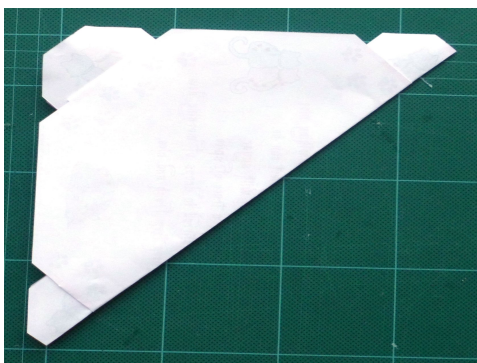

Fig 5   fig 6

Fold diagonally see fig 5 and then open it up and fold diagonally in the other direction see fig 6 for the fold lines.
There should not be a fold line from top to bottom.

Fig 7   fig 8
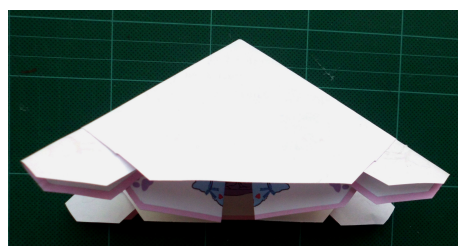

Fold in half tucking the sides inwards (see fig 7 & 8)

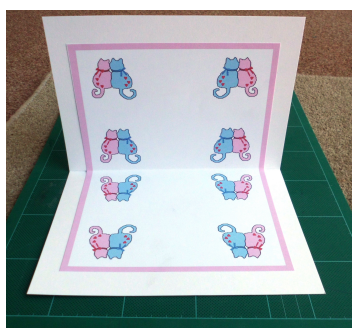

Fig 9   Fig 10

Print the card inside onto thin card, fold in half and stick inside a card blank or a piece of A4 card folded in half. See fig 9

Fig 11

Stick in your folded verse (See fig 10)

DO NOT GET ANY GLUE ON THE OCTAGON SHAPES

One side first so that the point of your folded verse is central inside the card. Try first before you stick.

Then glue in the other side. Your card should open like fig 11
