

# Rectangle Topped Easel Card Tutorial

Tutorial written by Mary Jane Harris 2013

The first step, after printing out your Easel Card pieces, is to cut out all of the pieces.

Next you will need to score the two fold lines on the card base. Using your bone folder Valley Fold along both lines and crease with bone folder.

Using doubled-sided sticky foam tape start layering up your pieces onto the card base.

I use 1/8" foam tape, but you can use any size you like.

Here is a picture of one of the finished Rectangle Topped Easel Cards.
