

Eliza Doolittle Cameo Series

<http://www.craftsuprint.com/joan-king/>

Materials Required

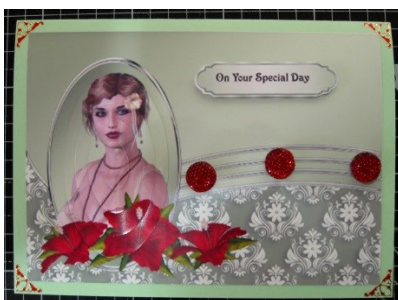

1 sheet A4 cardstock/photo paper for printing

1 sheet A4 cardstock to make card blank

Double sided tape, sticky pads & silicone glue

Embellishments

For the matching insert (available separately) 1 A4 sheet good quality paper

Card Instructions

Print the design onto your chosen card or photo paper. Using scissors or craft knife cut out all pieces & your chosen sentiment.

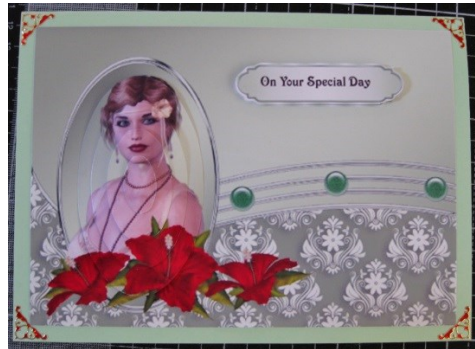

Score & fold your chosen card stock to make an A5 card blank. Using double sided tape or wet glue mount your topper onto the A5 card. At this stage you can add any peel off corners or borders that you wish.

If you want to add dimension you can curve the pyramage pieces.

Add the pyramage to your topper using either foam pads or silicone glue. If you have curved the pieces I recommend using silicone glue so that you can make the centre higher than the edges.

Print the matching insert onto good quality paper then trim, fold & attach to the inside of your card.

Add any further embellishments to complete your card.

Other Designs in this Series - All have Matching Inserts
