Starting with layer 1 add the pieces in number order to the front of your card blank using thin double sided foam tape.

Continue till you've added all of the layers

To ring the changes you can add all or or just some of the layers, the choice is yours.

You can also add the decoupage

Add glitter and gems for a real WOW factor!

Cut out the pieces to make the tree ornament. Layer up each piece using double sided foam tape. Make the 2nd one in the same way. These can be used as gift tags as they are.

To make into a hanging tree decoration sandwich the 2 halves together back to back adding wire, ribbon or cord in between so you can hang it on your tree.

The matching small toppers can be used on their own or inside or on the back of your card, and would also make great gift tags too! Or why not include your contact details on the back of one the toppers, and pop in with your finished card ... for future orders!

Score, cut out and fold the folded gift tags. These can also be used as small cards, place cards or together with an Xmas table gift or Christmas favours.
