

Gnome For Christmas Cards

My Gnome For Christmas cards have all been coloured by myself. Each will fit an 8"x8" card.

Print onto good quality card - I prefer glossy photo paper.

Cut out the topper using a craft knife or scissors.

Using glue or double sided tape, stick your topper onto your card and stick your insert inside.

Choose your sentiment and use foam pads to stick it to the front of your card.

Cut out the gift tags and poke or punch a hole in the top left corner. Thread twine, string or ribbon through the hole and tie.

There are currently 10 designs in this set.
