

3D Xmas Treat Boxes/Tree Decorations

Cute Fun Treat Boxes that can be used as a Christmas Tree Decoration
..... and they hold a little treat too!!

For best results print sheets onto photo paper or good quality cardstock.

Before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked.

Cut out and remove the centre of the frames and the circular area. There are 2 circular lines so choose the one that is the right size for your chosen treat.

Turn over. Fold the sides of the frames to the inside and adhere. Add 2 pieces of acetate over the windows each measuring just under 1.75 cm sq.

Cut out and add the decoupage.

I like to leave a small white border to these. Add to the box matching up with the placement graphics on the front and back of the box.

Fold, crease and burnish on all score lines. Add double sided tape where marked in blue on the photo.

Roll the box you have now created one last time to the right

and adhere in the centre of your treat box, lining up the sides to ensure it is square.

You can now add a treat to your box

Fold up the front and back, adhering the double sided tape you added earlier to the front and back flaps of the box.

Your box will now look like this from the front

Cut out and add double sided tape to the back of the paper ribbon. Starting towards the right hand side of the front attach the ribbon all around the bottom of the box.

Finishing up at the front. Trim any surplus ribbon flush with the side.

Fold in the front and back bending slightly along the top score lines

Punch holes and add ribbon, and a tag
